TECHNICAL BULLETIN -DECEMBER 1992

045. Miami Trip Rides

Since Technical Bulletin 028 in our August issue there have been two further accidents involving passenger restraint on Miami Trip rides.

We ask members involved with these devices to re-read the advice given on that occasion which included, in the exact words, the information provided by HSE regarding required action. We also remind members that paragraph 59 of "A Code of Safe Practice at Fairs: Technical Annex" contains specific advice relating to restraints provided for more than one passenger.
