116. Coin Operated Kiddie Rides

Some NAFLIC members are occasionally involved in the inspection of simple coin operated kiddie rides, although "Fairgrounds and Amusement Parks - A Code of Safe Practice" is less onerous regarding these than for larger passenger carrying amusement devices.

We have received from The British Amusement Catering Trades Association (BACTA) a copy of their industry's code of practice for such rides. The code deals, in two main sections, with "Design and Manufacture", and with "Operation and Use". The latter section includes advice on thorough examination etc.

Copies of "Coin Operated Kiddie Rides", price £20, may be purchased from :-

BACTA
BACTA House
Regents Wharf
6 All Saints Street
London N1 9RQ
