## **Standards & Related Documents Sub-Committee**

### **TECHNICAL BULLETIN - APRIL 1996**

#### **125. Chair-o-Planes**

In 1995 the Health & Safety Executive issued an information sheet (copy attached) on the subject of "Passenger containment on Chair-o-plane rides". The contents of this sheet had been agreed by the Joint Advisory Committee for Health & Safety in the Fairground Industry, which includes NAFLIC representatives.

While it was agreed that the guidance was valid from the date of issue it was also confirmed that HSE were proposing to enforce the proposals from the beginning of the 1996 season.

We remind any person bearing any responsibility for the safety of such a device that the information sheet includes a requirement for additional containment components. Persons involved in certification of such rides need to confirm that they've been fitted and that they remain in good condition.

Committee Members :- Dr Garry Fawcett (Chairman), Mr Richard Barnes, Mr Peter Steffens, Mr Doug Dadswell, Mr Peter Smith  
and representatives of LTC Ltd, Plant Safety Ltd, and Banwell & Associates Ltd
