INCIDENT BULLETIN — November 2015

029. Accident on roller coaster in Australia

An accident has occurred on the Green Lantern ride at Warner Bros Movie World, Australia. The ride is an S&S El Loco. It appears that the wheel carrier has failed with one half dropping to the ground. The train has then stalled resulting in the riders being evacuated at height. It is noted that this is a four seat wide version as opposed to the standard two seat wide model.
