TECHNICAL BULLETIN - DECEMBER 1994

103. Consistency of Improvement Notices

There has been some talk and correspondence recently regarding inconsistencies between different HSE area offices regarding equipment modifications required by Improvement Notices.

We do not believe that this is often likely to be a problem but we have corresponded on the subject with the HSE Entertainment Services National Interest Group (NIG), Preston. The HSE's suggested course of action, when an Appointed Person has any concerns about consistency, is to pursue them in one of two ways :-

- a) raise the matter with a local inspector, who could then seek advice from the NIG; or
- b) refer it to the NIG through NAFLIC.

Committee Members :- Dr Garry Fawcett (Chairman), Mr Richard Barnes, Mr Bob Nicholls, Mr Les Howson,
Mr Malcolm Tennant, Mr Peter Steffens
